

INEOS Films Cards Business – Dedicated to cards

Castiglione, 7 October 2005

INEOS Films Cards Business offers a wide range of rigid PVC and ABS films, in sheets and rolls, specially adapted to the high requirements of the cards market.

As a clear sign to the public of the total integration of our company into the INEOS group, the former EVC Films group changed its name recently to INEOS Films. This measure clearly underlines the strategic importance of the Films business within the INEOS group, as well as the intention to rapidly expand this side of the business.

INEOS Films was one of the first companies to develop a rigid PVC film for the cards industry. Today we are a worldwide and pre-eminent player in the cards market. In our production sites in Europe and soon in Delaware (USA), we guarantee the best film quality by the utilization of selected raw materials, the consistency of formulations and exhaustive quality controls, including surface and thickness in-line checks. In our cards dedicated plant in Castiglione (Italy) we achieve consistently high product quality by adhering rigorously to a quality assurance system that has been granted EN ISO 9001:2000 certification.

Our complete cards film programme includes core films with matt and superfine surfaces as well as coated and uncoated overlay films. Different physical and mechanical properties make them suitable for almost all common printing techniques. Best results by using INEOS Films can be guaranteed for the production of:

- ID cards
- Gift cards
- Loyalty cards
- Contactless cards
- Dual interface cards
- Banking cards
- Mobile
- Smart Cards
- Playing cards

Films are available for high temperature applications and for laser engraving. Individual, tailor-made solutions are our answer to all market needs.

Footnote to the editor:

INEOS Films is one of the globally leading manufacturers of rigid plastic films. It comprises 4 businesses, each dedicated to the special requirements of the markets. INEOS Films production network includes 10 sites throughout the world. In 2005, the films group has approximately 1.650 employees with sales of more than 180 kt film.
